

CERTIFIED TDI SERVICE CENTERS USE ONLY GENUINE **TURBOTWIN™** PARTS.

UNFORTUNATELY, NOT EVERYONE IS CERTIFIED.

When your TurboTwin is ready for rebuild, remember one thing: if you do not use Genuine TurboTwin parts, it won't be a TurboTwin. The inter-reliant nature of the individual components in TDI turbine air starters make using Genuine TurboTwin parts performance-critical.

Jet aircraft mechanics or racing teams wouldn't dare put

"no name" parts on their engines. So why compromise your engine's

start-up by allowing "imposter" parts in your TurboTwin?

The availability of your engine is 100% dependent on your start system. Don't risk it. Choose trained and certified TDI Service Center mechanics who use Genuine TurboTwin parts to assure starting reliability.

Is A Compromise.*

IS SAVING A FEW DOLLARS ON KNOCK-OFF STARTER PARTS WORTH RISKING YOUR ENGINE'S AVAILABILITY?

Every hour your engine is out of commission because it won't start, costs you thousands of dollars. So when it comes time to repair or rebuild your engine's starter, do you really want to risk your entire operation on knock-off parts being installed by uncertified service centers just to save a few dollars? Here's the downtime math.

Application	Cost of Downtime
Gas Field	\$1000-\$2000/hour
Gas Pumping Station	\$3000-\$5000/hour
Oil Field	\$1000-\$5000/hour
Oil Pumping Station	\$2000-\$5000/hour
Work Boat	\$500-\$2000/hour
Mine Haul Truck	\$400-\$1000/hour
One-Time Cost Savings	\$10-\$50

With so much of your operation hinging on reliable engine starts, why risk it? Certified TurboTwin Remans performed by Authorized TDI Distributors using Genuine TurboTwin parts eliminate the uncertainty of knock-off parts and suppliers. They assure the TurboTwin starter reliability you originally purchased is still performing like a TurboTwin.

Don't compromise your air starter. Use Genuine TurboTwin parts from your authorized TurboTwin distributor. The reliability of your starter and availability of your engine depends on it.

		Authorized & Certified SERVICE CENTER
Service Performed By:	ABC Distributor 555 Main Street Anywhere, USA Tel - 555-555-5555	
Date:		

Look for the Certified TDI Service Center Label on your TDI Remans to assure it's a real TurboTwin.

Guess who saved \$20 on a knock-off part on a critical starter rebuild?

Genuine TurboTwin Parts feature the etched TDI and TurboTwin logos. If there's no etching, it's not a TurboTwin part.
